

## U. S. WILL OVERRIDE STATE BEER LAWS

Arrests to Follow Any Violations of Volsted Law, Roper Asserts.

### THREAT AIMED AT JERSEY

Any 3 1-2 Per Cent. Legislation Will Not Be Recognized at Present.

WASHINGTON, Feb. 28.—All persons found violating the Federal prohibition enforcement act will be proceeded against to the "limit of the law," irrespective of any State statutes legalizing the sale of liquor, it was announced today by Commissioner Roper of the Internal Revenue Bureau.

Mr. Roper's ruling resulted from the bill now pending before the New Jersey Legislature legalizing the sale and manufacture of beer containing 3 1/2 per cent. of alcohol.

"The bureau of internal revenue is charged with the enforcement of the national prohibition act," he said. "It definitely prohibits the manufacture and sale for beverage purposes of all liquors containing half of 1 per cent. or more of alcohol by volume. This being the case the manufacture and sale of 3 1/2 per cent. beer, which is permitted by the bill in the New Jersey Legislature is in direct violation of the Federal statute. All persons, therefore, who are found guilty of this violation of the Federal statute will be proceeded against to the limit of the law."

Liquor owners may transfer their stocks legally from one dwelling to another only when there is an actual change of residence, and then only under special permit, according to an announcement today by the Internal Revenue Bureau, issued to correct published reports that owners of two or more dwellings might move their stock from one to the other unhampered.

"Only where a person actually changes his dwelling may he remove his liquor under special permit to transport with other household effects to his new permanent residence, providing such transfer is not in conflict with State laws," the statement said. "This ruling is not construed to mean, for example, that a person who owns a shooting lodge in Maine, a winter residence in Florida and a private dwelling in New York may transport liquor for beverage purposes from one to another. Liquor so transported and the vehicles in which it is conveyed are subject to seizure. The person transporting it is subject to arrest."

### SAYS JERSEY BEER WILL PASS SENATE

12 Votes Are Certain, Asserts Senator Brown.

The 250 per cent. beer and liquor bill passed by the New Jersey Assembly last week will go through the Senate tomorrow night, according to a statement of Senator Thomas Brown of Perth Amboy yesterday. He expects twelve of the twenty-one members of the Senate to vote for the measure.

Evading a discussion of the declaration of internal revenue, which is the Roper that any one selling 3.50 per cent. beverages would be prosecuted under the Volstead act, Governor Edwards said he would make no attempt to have the bill amended, but would certainly affix his signature at once as soon as it passed the Senate.

"Do you hold the sale of 3.50 per cent. beverages will be permissible after the passage of the bill?" the Governor was asked.

"The war is not over," he replied. "But after formal declaration of peace will it be legal?"

"We claim so," was the last word, ignoring altogether the statement of the head of the United States Brewers Association that 3.50 per cent. beer could not be sold until the United States Supreme Court upheld the "concurrent power" provision of the Eighteenth Amendment.

"I am thinking only of the principles for which I have stood," said the Governor when asked to comment on his boom for the Democratic Presidential nomination, which has received an impetus from the Illinois Democrats. "I have not said I would announce my candidacy for the Presidency."

### HOUSE CALLS HALT ON BIG DRY BILLS

Scent Plot to Make Amendment Ridiculous.

Special to THE SUN AND NEW YORK HERALD. WASHINGTON, Feb. 28.—The House today ordered a halt on unlimited appropriations for the enforcement of prohibition, after several members had declared that various Government agencies involved in making the country dry are asking large sums and proposing "freakish schemes," with the aim of making the prohibition amendment appear ridiculous.

Charges to this effect were made by Representatives Good (Iowa), Cannon (Ill.) and Byrnes (S. C.), all members of the appropriations committee. Immediately after, the House voted against an appropriation of \$1,000,000, which the Customs service had asked to prevent the smuggling of liquor into the country.

This would have made possible the employment of 1,000 additional guards, particularly along the Mexican border, across which it is charged large quantities of liquor have been brought despite prohibition. The Senate included this amount in the deficiency appropriation bill, and the action of the House today, which was by unanimous vote, was to strike the amount from the bill.

## Closing Scene in the Iron River "Whiskey Rebellion."

## INVESTIGATE LIQUOR REVOLT IN MICHIGAN

State Officials Start Inquiry—Seek Full Publicity.

IRON RIVER, Mich., Feb. 28.—The final phase of "the bloodless whiskey rebellion" in Iron county was begun today in the office of Martin S. McDonough, State's attorney, where J. E. Converse, assistant attorney-general of Michigan, opened the State inquiry into the comedy-melodrama staged by rival forces of county and Federal agents.

Mr. Converse telegraphed the Attorney-General at Lansing last night for permission to hold the investigation in public, "to give Iron county the same publicity received by Major A. V. Dalrymple," author of the phrases "whiskey rebellion" and "open revolt," applied when McDonough and county and city officials took from a Federal prohibition agent several barrels of confiscated wine.

John, Peter and Steven Scallucci of the local Italian colony and makers of the wine which started all the trouble; McDonough and the deputy sheriffs of Iron county and the police of Iron River were among the witnesses summoned by Mr. Converse. Iron River was put on its good behavior at the hearing, for only one policeman was left on duty.

A Federal investigation of the "revolt" was conducted yesterday by George F. Cummerow, special agent of the Department of Justice, who examined several witnesses behind closed doors.

### DRY LAW DENOUNCED.

Missouri Republicans Urge Repeal of Federal Amendment.

St. Louis, Feb. 28.—National prohibition was denounced and Congress was asked to repeal the Eighteenth Amendment in a resolution adopted here today at the Tenth district Republican convention, called to elect delegates to the national convention at Chicago.

About one-third of the convention was composed of women. The resolution was cheered lustily when introduced. It declares national prohibition an infringement on States' rights as guaranteed by the Constitution and asks that hereafter proposed constitutional amendments be submitted to the people for ratification.

## JERSEY REPUBLICAN DELEGATES UNTIED

Wood and Johnson Managers Each Claims Advantage in Primary Race.

### EDGE STAYS ON FENCE

Senator Reported to Have V-P Aspirations and to Favor Harding.

Republican politics in New Jersey is in a much tangled condition and threatens to get more complicated every day. Friends of Major-Gen. Leonard Wood—and there are many of them—assert that the situation is crystallizing around him. On the other hand, New Jersey managers for United States Senator Hiram Johnson intimate that they are playing shrewd politics, which in the end will land most of the Jersey delegates to the national convention in their net.

But there is one man who dominates the picture so far as bringing about harmony is concerned. He is former Governor and present United States Senator Walter E. Edge. He is not playing with either the Wood men or the Johnson men; indeed, is generally believed to be for Senator Warren G. Harding, although he has not declared himself.

Because of his position as Senator, Mr. Edge is insisting on being selected as one of the "Big Four." He has aspirations also to be the Vice-Presidential candidate, which is the reason probably that he has not tied up openly yet with any of the Presidential booms. But his going on the "Big Four" is being opposed by Edward C. Stokes, chairman of the State committee, who is for Wood, and also by some of the Johnson leaders.

It is said that Senator Edge may not have enough strength to force his selection as one of the delegates-at-large, but he has the ability to make a great deal of trouble in the situation. State Comptroller Newton A. K. Bugbee is advocating both Senators Edge and Frelinghuysen, Chairman Stokes and Col. Austen Colgate as the delegates-at-large.

Hamilton F. Kean, member of the national committee, is said to be willing to give up his right to a place on the "Big Four." He has been quoted as saying his "Big Four" plan consists of former Governor John W. Griggs, former Gov-

ernor William N. Rarison, William T. Read, State Treasurer, and Col. Colgate. Ruford Franklin, former Mayor of Summit, State manager for the Wood League, claims that the Kean "Big Four" are all for Wood for President. In a statement yesterday he referred to a poll of the State committee, where, as announced, sixteen out of nineteen declared a preference for Wood. This poll was taken some time ago, however, and there is reason to believe the Wood sentiment has waned since that time.

"The twenty-eight delegates from New Jersey may not go to Chicago instructed," said Mr. Franklin, "but it looks as though no one will be considered, by the voters in the preferential primary in April if they have not declared themselves for Wood."

Mr. Franklin quotes Mr. Kean as saying: "A majority of the sentiment in New Jersey is for Wood. Personally, I am for any good Republican. The managers of all Republican Presidential candidates come to me for advice and I am in a better position if I don't commit myself."

## PLAN OF NEUTRALS FOR A HIGH COURT

Dutch, Swiss and Scandinavians Frame Scheme for World Tribunal.

### JUDGES ARE INDEPENDENT

Only Cases of International Legal Character to Come Before Body.

By the Associated Press.

THE HAGUE, Feb. 28.—As a result of conferences held at the Hague peace palace by representatives of Holland, Switzerland and the Scandinavian countries, the Dutch Government is requested to present to the secretary of the League of Nations the plan for a high court of nations agreed upon after long study by these neutrals. The salient points of the plan are as follows:

Complete equality of States in the nomination of members of the court. The court must be free of every political influence, the judges being independent in their actions of the influence even of the governments which appoint them.

The law faculties of universities to be consulted in the selection for membership.

The nomination of judges to be for nine years or life; the judges must live in the city selected as the permanent site of the court.

Salaries and costs to be shared equally by the members of the league. States not members of the league to be permitted to participate in the court's benefits, appearing as plaintiffs or defendants.

The interests of private persons to be tried only in so far as their State takes over their claims.

The court only to decide cases of an international legal character.

The general procedure to follow the plan approved by the second peace conference of 1907.

Each party in a suit to pay his own expenses.

It was explained to the correspondent that while the nations participating in this conference are not bound by the plan advanced, they are agreed in all its phases. Each of these nations has drafted an individual plan, and the conference coordinated them at Holland's invitation.
